Description

I'm a freshgraduate of Informatics at Gunadarma University. I'm a junior web programmer. In the 6th semester, I participated in the MSIB Batch 4 program, which is a certified independent study with the lesson "2023 Complete Front-End Engineer Career With ReactJS" at Alterra Academy. There, I learned about React JS. In the 7th semester, I participated in the MSIB Batch 5 program, which is a certified independent study with the lesson "Front-End Web and Back-End Developer" at Dicoding Indonesia. There, I learned about front-end development up to the expert level and back-end development. With this experience, I gained a better understanding of front-end and back-end development, as well as React JS as its framework, and I can apply it to the projects I work on.

Projects

Website Developer
October 2020 – Present

- Created Massage website, finished this project and implemented its front end. This massage website was created using React, tailwind and framer motion
- Created e-mading website along with an admin page to input, edit, and delete articles using PHP and MySQL.
- Contributed to the development of a capstone project in SIB cycle 5 Dicoding titled moneyMingle using HTML, CSS, JavaScript, and Node.js (Hapi.js), which is a website that functions for smart money management. I was part of the front-end team that created the design and functionality of the moneyMingle website.
- Built a restaurant catalog website using HTML, CSS, JavaScript by implementing PWA, testing, and optimized.
- Created a crypto search website with HTML CSS JavaScript, ES6, custom elements, webpack and API.
- Contributed to the development of a capstone project in SIB cycle 4 React.js at Alterra Academy by created an admin page for Balink using React.js (React). I created a table along with CRUD and preview functionality to be used on the admin page, and I successfully completed the API integration from the back-end team.
- Successfully completed an MVP mini-project, which is a landing page, cart, delete products, add products on an electronic store website using React.js, Bootstrap, and React-Router that I created.

Education

Gunadarma University
Bachelor Degree in Informatika
October 2020 – October 2024
GPA 3.82
