Description

I'm Fullstack developer with expertise in ReactJS at Alterra Academy (training in the MSIB batch 4 program) and Full-stack Development at Dicoding Indonesia (training in the MSIB batch 5 program). I've also worked as full-stack developer and IT Support.

Work Experiance

Freelancer

February 2024 – Present

- Managing certificate documents and ensuring ownership documents are properly verified before being sent to the certificate owner.
- Successfully managed freelancers to create effective boarding house advertisements on Mamikos, achieving full occupancy targets through my performance.
- Successfully created a wedding website to invite someone.

Fullstack Website Developer – Best master ware

- Successfully created Point of Sale (POS) System - A web-based sales and inventory management application with real-time transaction processing, financial reporting, and automated stock control features.
- Designing database structure and website appearance
- Deployed application to hostinger and performed basic testing
- IT Support

Staff Logistic – PT Finfleet Teknologi Indonesia

January 2025 – March 2025

- Successfully sorting goods according to target by acting as an Operator to scan products and become a helper for the sorted goods.

Projects

Website Developer

October 2020 – Present

- Developed a web-based inventory system to manage product stock, incoming/outgoing transactions, returns, stock opname, and price increase reports.
- Successfully created a system that improves data organization, simplifies medical record management.
- Built Point of Sale System - A web based sales and inventory management application with real-time transaction processing, financial reporting, and automated stock control features.
- Successfully launched Full-featured blog application: Laravel Eloquent, Attach/Detach, Eager Loading, Polymorphic, Authentication, Middleware, Policy & Gates, and File Upload.
- Successfully launched a real-time chat app Mern Stack with secure login, smooth performance, and modern UI. Strengthened my Mern Stack development experience and real-time app architecture skills.

- Built a restaurant catalog website using HTML, CSS, JavaScript by implementing PWA, testing, and optimized.

Education

Gunadarma University

Bachelor Degree in Informatika
